আমার সাজেশন — কোন order-এ পড়বে

1. **CampusX playlist** দিয়ে LangChain-এর basic জানো (Hindi, familiar)
2. **LangChain official RAG tutorial** পড়ে/করে RAG hands-on শিখো (best practice code)
3. **Intellipaat full course** দিয়ে RAG + MCP-এর connection বুঝো — এটাই একমাত্র course যেটায় LangChain, Embeddings, RAG Agent, এবং MCP সবগুলো একসাথে আছে
4. **Anthropic-এর নিজের MCP course** দিয়ে finish করো — কারণ এটা MCP-এর creator নিজেই বানিয়েছে, সবচেয়ে authoritative
